NYSDOH COVID-19 In-Person Decision Making Flowchart for Student Attendance

Can My Child Go To School Today?

In the past 10 days, has your child been tested for the virus that causes COVID-19, also known as SARS-CoV-2?

YES

NO

Was the test result **positive** OR are you still waiting for the result?

YES

Your child **cannot** go to school today. They must stay in isolation (at home and away from others) until 10 days have passed from symptom onset with at least 72 hours after recovery (with resolution of fever without fever-reducing medications) if waiting for the results **OR** if **positive**, the local health department has released your child from isolation.

In the last 10 days, has your child:

- Traveled internationally to a **CDC level 2 or higher COVID-19 related travel health notice country**; or
- Traveled to a noncontiguous state; or
- Been designated a contact of a person who tested positive for COVID-19 by a local health department?

NO

YES

Your child **cannot** go to school today unless:

- For travelers, they have quarantined for 10 days or met the criteria to test out of the 10-day quarantine period.
- For children designated as a contact, until the local health department releases your child from quarantine (at least 10 days).

If your child received a COVID test within 72 hours prior to arriving in NY, they must quarantine for 3 days and can test on the 4th day after arrival. Students who receive a second negative result can return to school.

Does your child currently have (or has had in the last 10 days) one or more of these new or worsening symptoms?

- A temperature greater than or equal to 100.0° F (37.8° C)
- Shortness of breath or trouble breathing
- Feel feverish or have chills
- Nausea, vomiting, diarrhea
- Cough
- Muscle pain or body aches
- Loss of taste or smell
- Headaches
- Fatigue/feeling of tiredness
- Nasal congestion/ runny nose
- Sore throat

YES

NO

Your child **cannot** go to school today. Your child should be assessed by their pediatric healthcare provider (HCP). Call your child's HCP before going to the office or clinic to tell them about your child's symptoms. If your child does not have a HCP, call your local health department.

Your child **CAN** go to school today. **Make sure they wear a face covering or face mask, practice social distancing, and remind them to wash their hands!**

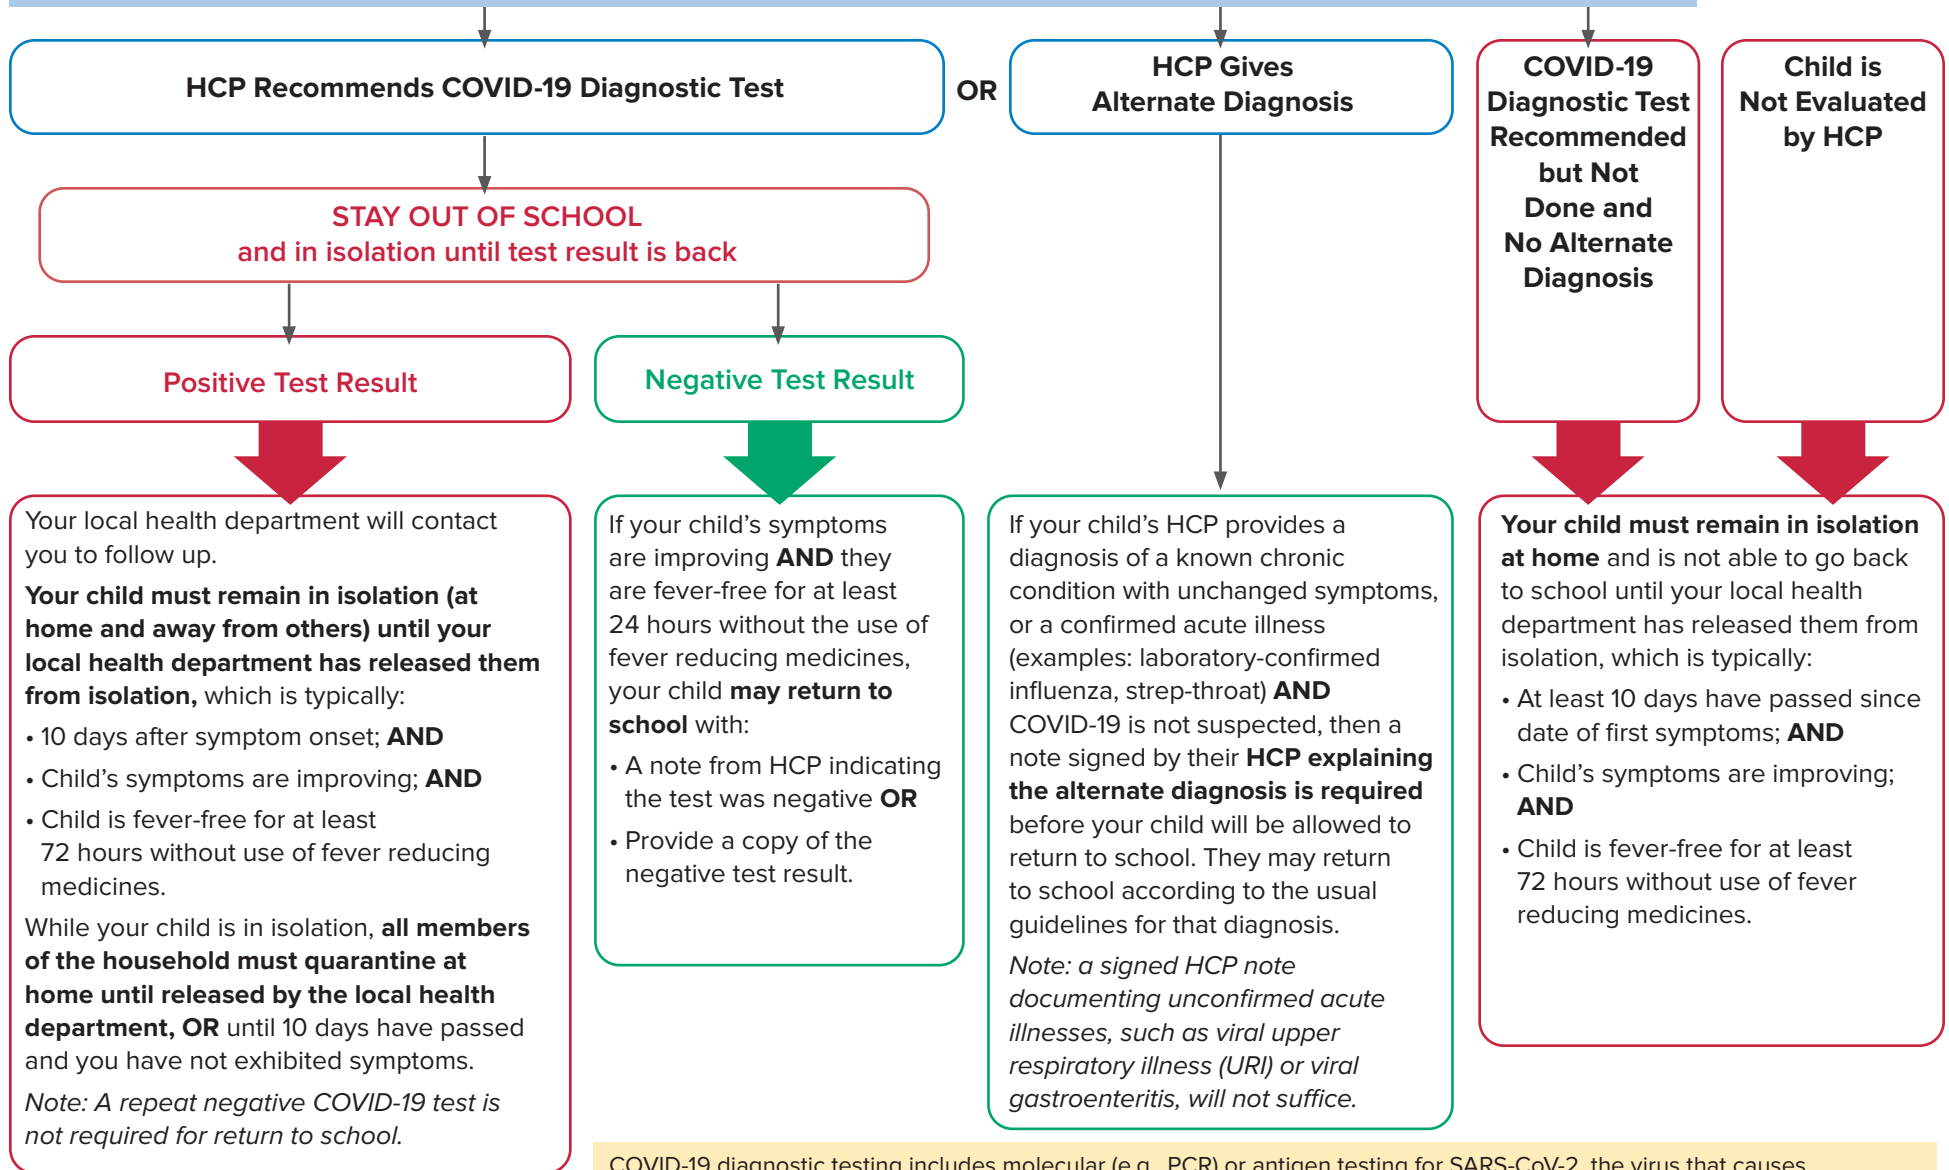

Report absences, symptoms, and positive COVID-19 test results to your child's school.

SEEK IMMEDIATE MEDICAL CARE IF YOUR CHILD HAS:

- Trouble breathing or is breathing very quickly
- Change in skin color - becoming pale, patchy and/or blue
- Prolonged fever
- Racing heart or chest pain
- Is too sick to drink fluids
- Decreased urine output
- Severe abdominal pain, diarrhea or vomiting
- Lethargy, irritability, or confusion

My child has COVID-19 symptoms. When can they go back to school?

HEALTHCARE PROVIDER (HCP) EVALUATION FOR COVID-19 (can be in-person or by video/telephone as determined by HCP)

COVID-19 diagnostic testing includes molecular (e.g., PCR) or antigen testing for SARS-CoV-2, the virus that causes COVID-19. Diagnostic testing may be performed with a nasopharyngeal swab, nasal swab, or saliva sample, as ordered by the health care provider and per laboratory specifications. At times, a negative antigen test will need to be followed up with a confirmatory molecular test. Serology (antibody testing) cannot be used to rule in or out acute COVID-19.

NYSDOH COVID-19 In-Person Decision Making Flowsheet for Staff To Go To Work

Can I Go to Work at the School Today?

In the past 10 days, have you been tested for the virus that causes COVID-19, also known as SARS-CoV-2?

YES

NO

Was the test result **positive** OR are you still waiting for the result?

YES

You **cannot** go to work at the school today. You must stay in isolation (at home and away from others) until 10 days have passed from symptom onset with at least 72 hours after recovery (with resolution of fever without fever-reducing medications) if waiting for the results **OR** if **positive**, the local health department has released you from isolation.

In the last 10 days, have you:

- Traveled internationally to a **CDC level 2 or or higher COVID-19 related travel health notice country**; or
- Traveled to a noncontiguous state; or
- Been designated a contact of a person who tested positive for COVID-19 by a local health department?

NO

YES

You **cannot** go to work at the school today unless:

- For travelers, you have quarantined for 10 days or met the criteria to test out of the 10-day quarantine period.
- For individuals designated as a contact, until the local health department releases you from quarantine (at least 10 days).

If you received a COVID test within 72 hours prior to arriving in NY, you must quarantine for 3 days and can test on the 4th day after arrival. Once you receive a second negative result can return to school.

Do you currently have (or have had in the last 10 days) one or more of these new or worsening symptoms?

- A temperature greater than or equal to 100.0° F (37.8° C)
- Shortness of breath or trouble breathing
- Feel feverish or have chills
- Nausea, vomiting, diarrhea
- Cough
- Muscle pain or body aches
- Loss of taste or smell
- Headaches
- Fatigue/feeling of tiredness
- Nasal congestion/ runny nose
- Sore throat

YES

NO

You **cannot** go to work at the school today.

You should be assessed by your health care provider (HCP). Call your HCP before going to any in-person visits to tell them about your symptoms. If you do not have a health care provider, call your local health department.

You can go to work at the school today!
Make sure you wear a face covering or face mask, practice social distancing, and wash your hands frequently.

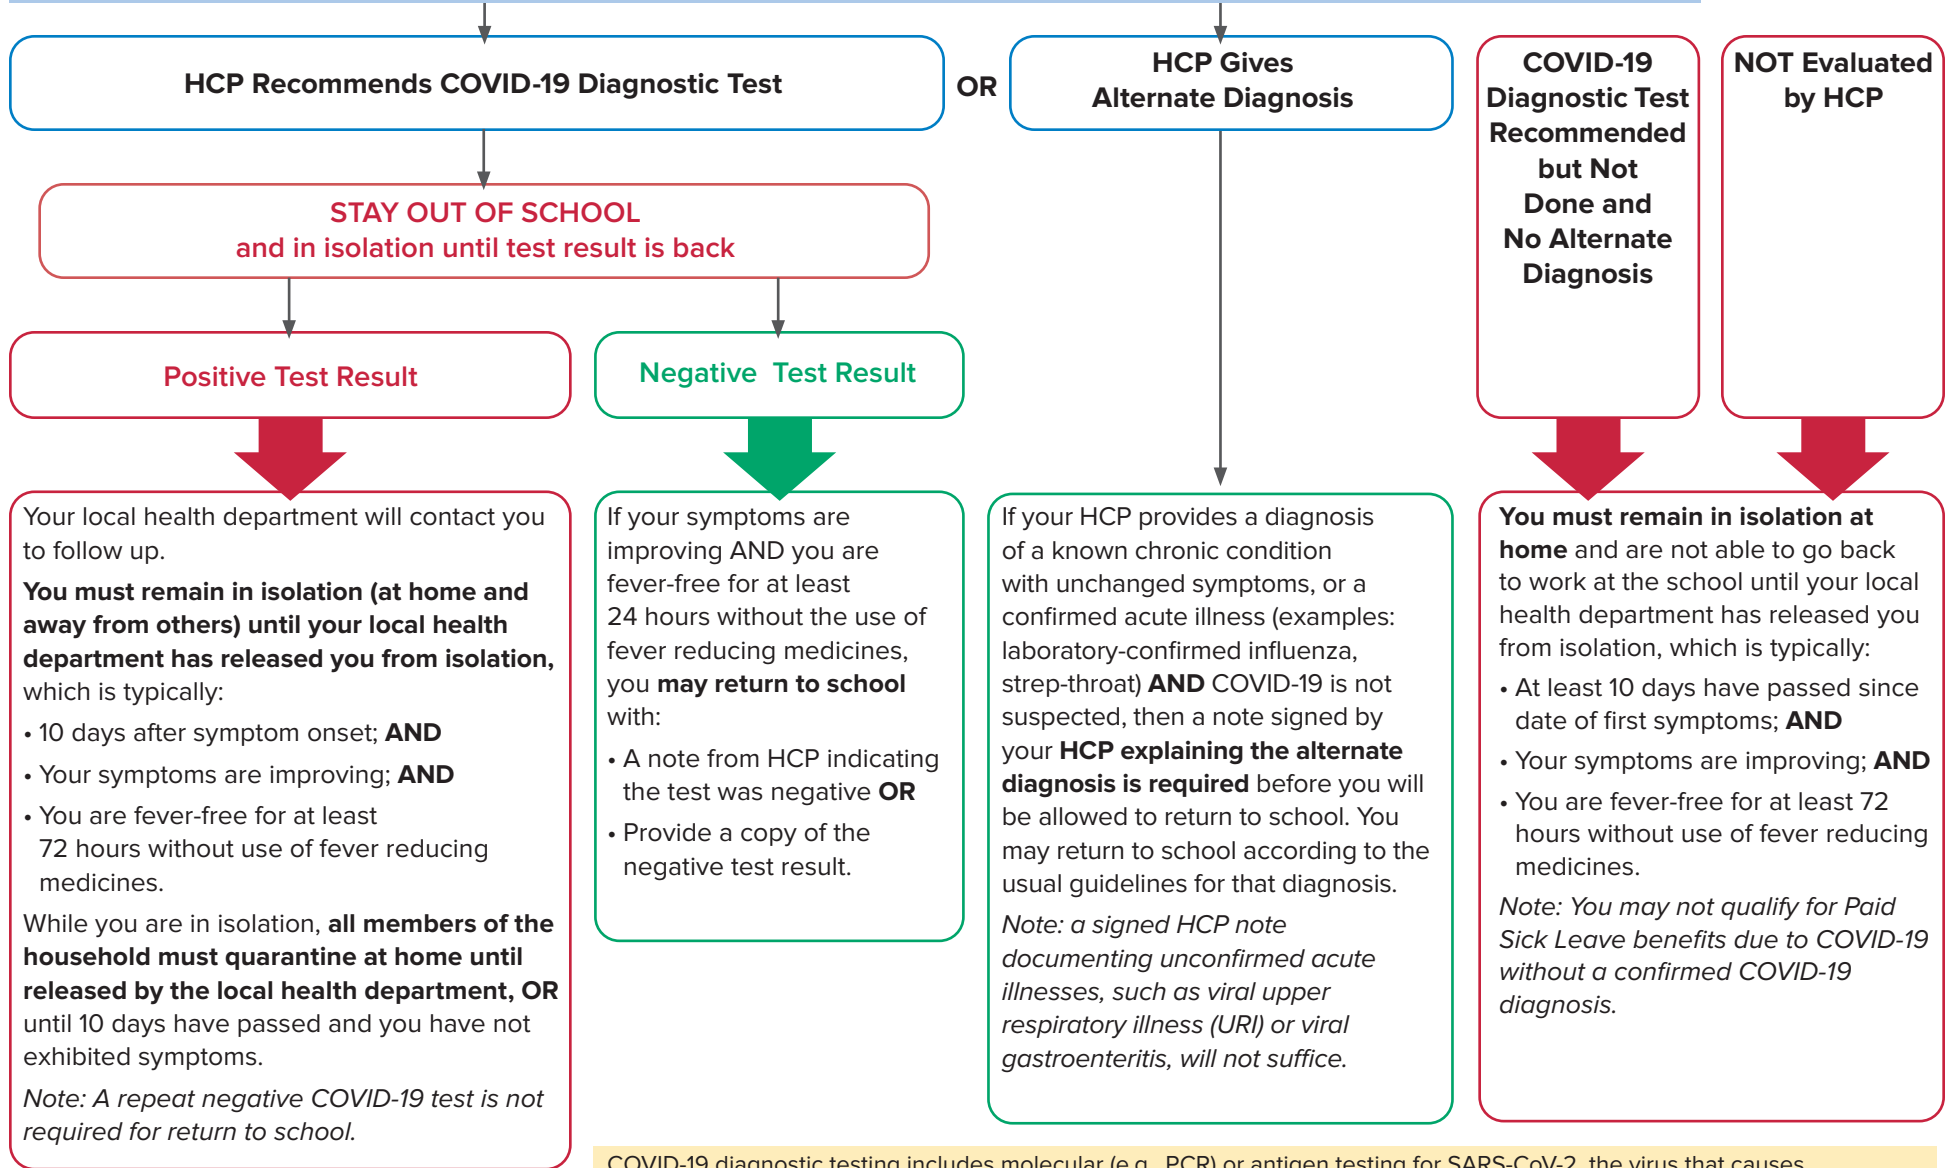

Report absences, symptoms, and positive COVID-19 test results to your school.

SEEK IMMEDIATE MEDICAL CARE IF YOU HAVE:

- Trouble breathing or are breathing very quickly
- Change in skin color - becoming pale, patchy and/or blue
- Are too sick to drink fluids
- Racing heart or chest pain
- Severe abdominal pain, diarrhea or vomiting
- Decreased urine output
- Lethargy, irritability, or confusion

I have COVID-19 symptoms. When can I go back to work at the school?

HEALTHCARE PROVIDER (HCP) EVALUATION FOR COVID-19 (can be in-person or by video/telephone as determined by HCP)

COVID-19 diagnostic testing includes molecular (e.g., PCR) or antigen testing for SARS-CoV-2, the virus that causes COVID-19. Diagnostic testing may be performed with a nasopharyngeal swab, nasal swab, or saliva sample, as ordered by the health care provider and per laboratory specifications. At times, a negative antigen test will need to be followed up with a confirmatory molecular test. Serology (antibody testing) cannot be used to rule in or out acute COVID-19.

NYS DOH COVID-19 Guide for School Administrators and Schools Nurses

COVID-19 Screening Flowsheet for Students and Staff

In the past 10 days, has the student or staff been tested for the virus that causes COVID-19, also known as SARS-CoV-2?

YES

NO

Was the test result **positive** OR are they still waiting for the result?

YES

The student or staff **cannot** go to school today. They must stay in isolation (at home and away from others) until 10 days have passed from symptom onset with at least 72 hours after recovery (with resolution of fever without fever-reducing medications) if waiting for the results **OR** if **positive**, the local health department has released them from isolation.

In the last 10 days, has the student or staff:

- Traveled internationally to a **CDC level 2 or or higher COVID-19 related travel health notice country**; or
- Traveled to a noncontiguous state; or
- Been designated a contact of a person who tested positive for COVID-19 by a local health department?

NO

YES

The student or staff **cannot** go to school today unless:

- For travelers, they have quarantined for 10 days or met the criteria to test out of the 10-day quarantine period.
- For student or staff designated as a contact, until the local health department releases them from quarantine (at least 10 days).

If they have received a COVID test within 72 hours prior to arriving in NY, they must quarantine for 3 days and can test on the 4th day after arrival. Once they receive a second negative result can return to school.

Does the student or staff currently have (or has had in the last 10 days) one or more of these new or worsening symptoms?

- A temperature greater than or equal to 100.0° F (37.8° C)
- Shortness of breath or trouble breathing
- Feel feverish or have chills
- Nausea, vomiting, diarrhea
- Cough
- Muscle pain or body aches
- Loss of taste or smell
- Headaches
- Fatigue/feeling of tiredness
- Nasal congestion/ runny nose
- Sore throat

YES

NO

The student or staff **cannot** go to school today. They should be assessed by their health care provider (HCP). If they do not have an HCP, they should call their local health department. If they do not receive COVID-19 testing, or are not cleared to return to school by their HCP, then they are required to be isolated at home. See next page for more information.

The student or staff **CAN** go to school today! Make sure they wear a face covering or face mask, practice social distancing, and wash their hands frequently.

Communicate to your students and staff that they must report absences, symptoms, and positive COVID-19 test results to your school.

CALL 911 IF A STUDENT OR STAFF HAS:

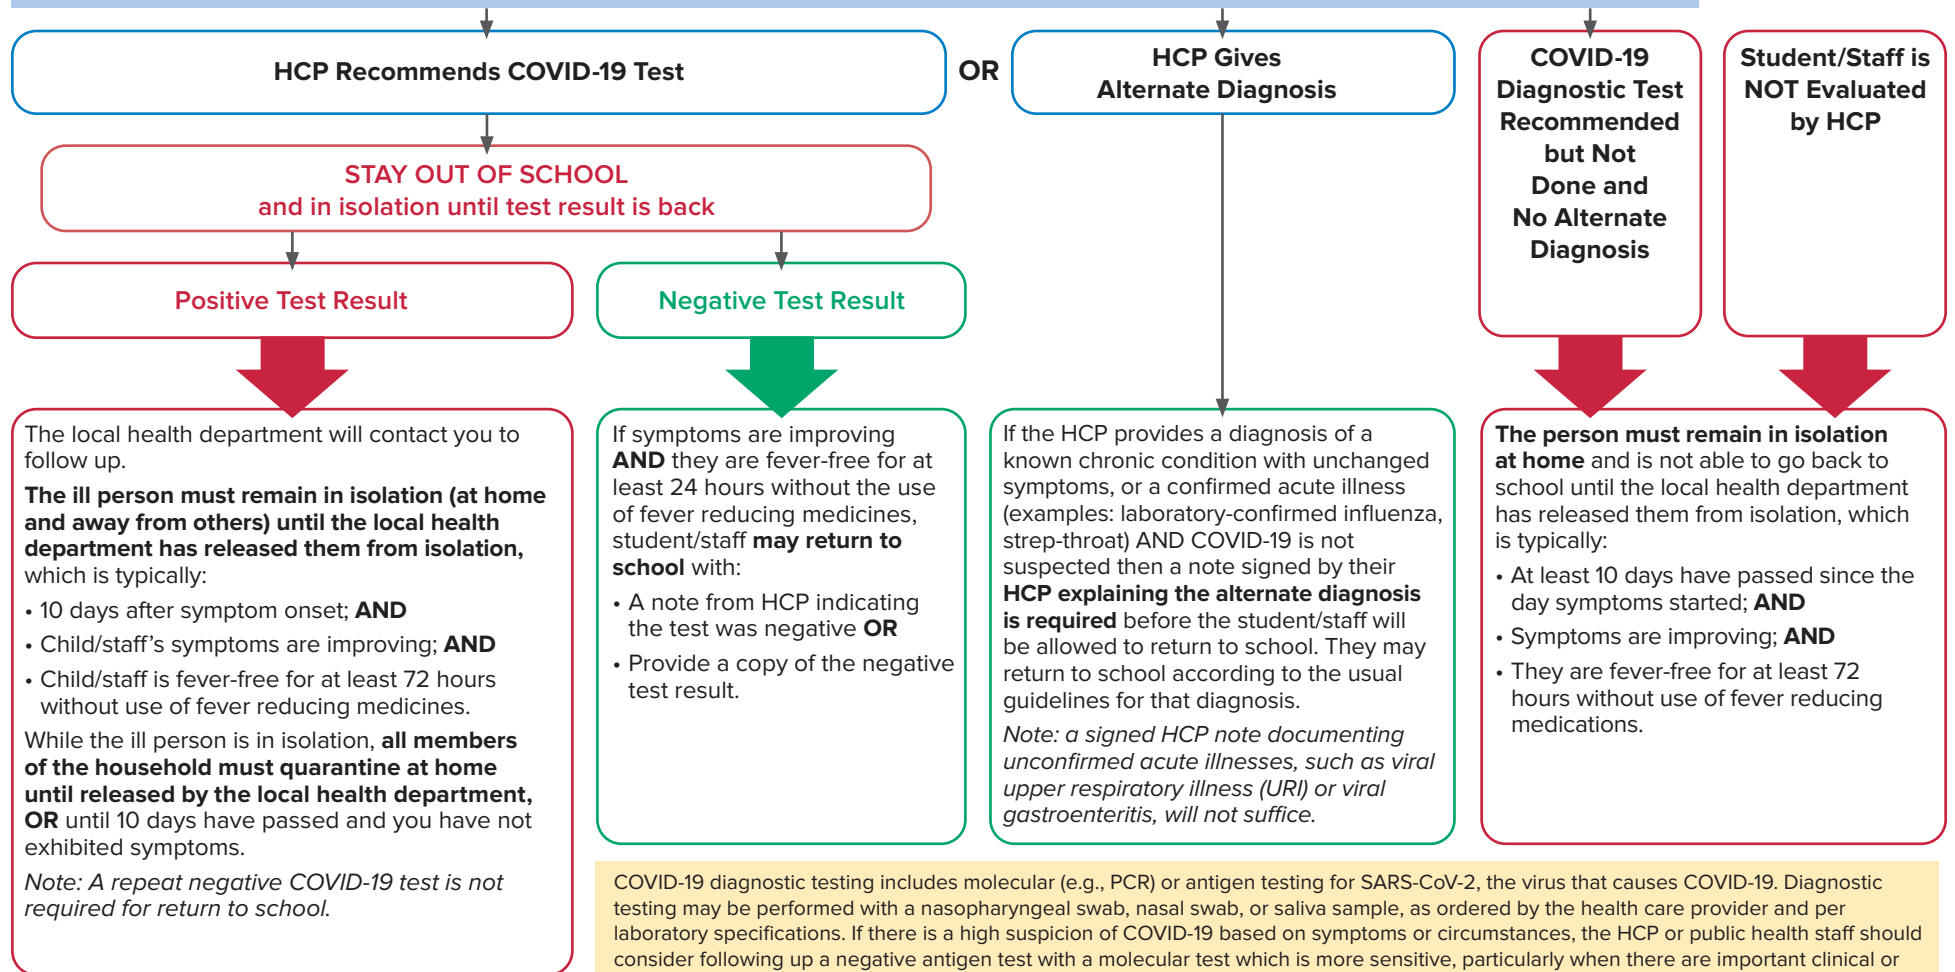

- Trouble breathing or is breathing very quickly
- Change in skin color - becoming pale, patchy and/or blue
- Severe abdominal pain, diarrhea or vomiting
- Racing heart or chest pain
- Lethargy, irritability, or confusion

COVID-19 Flowsheet for Student or Staff with COVID-19 Symptoms

Student/staff has symptoms consistent with COVID-19:

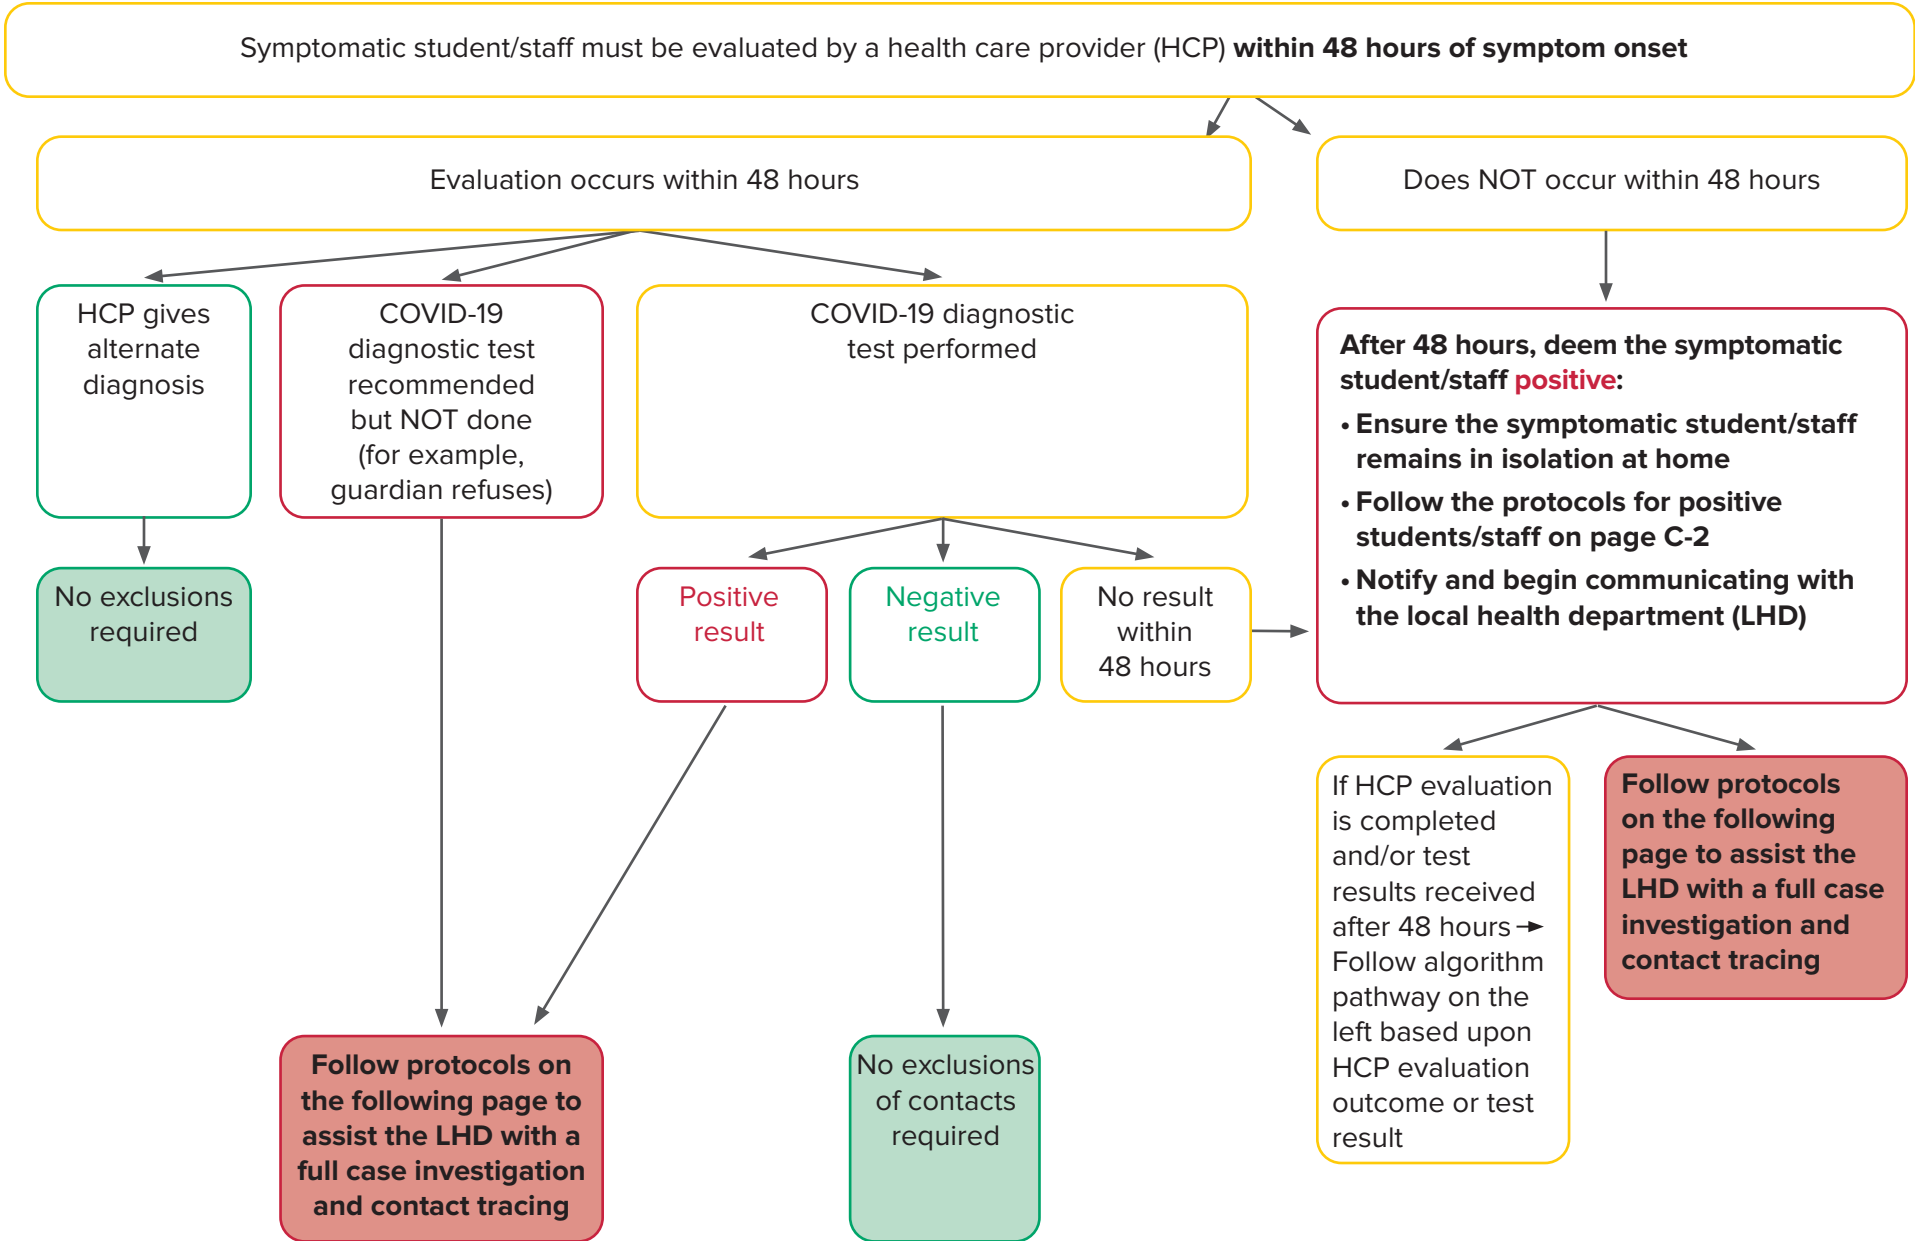

- Student/staff member should keep face mask on.
- Staff members should be sent home immediately.
- Students awaiting transport home by the parent/guardian must be isolated in a room or area separate from others, with a supervising adult present using appropriate personal protective equipment (PPE).
- School administration and the parent/guardian should be notified.
- Provide instructions that the individual must be seen by an HCP for evaluation and have COVID-19 testing (unless determined not necessary by HCP). If they do not have an HCP they should call their local health department.
- Schools should provide a list of local COVID-19 testing locations.
- Clean and disinfect area where the student/staff member was located.

HEALTHCARE PROVIDER (HCP) EVALUATION FOR COVID-19 (can be in-person or by video/telephone as determined by HCP)

COVID-19 diagnostic testing includes molecular (e.g., PCR) or antigen testing for SARS-CoV-2, the virus that causes COVID-19. Diagnostic testing may be performed with a nasopharyngeal swab, nasal swab, or saliva sample, as ordered by the health care provider and per laboratory specifications. If there is a high suspicion of COVID-19 based on symptoms or circumstances, the HCP or public health staff should consider following up a negative antigen test with a molecular test which is more sensitive, particularly when there are important clinical or public health implications. Serology (antibody testing) cannot be used to rule in or out acute COVID-19.

COVID-19 exclusion protocol for contacts of symptomatic students and staff

COVID-19 School and Local Health Department Coordination for Contact Tracing

Notify the local health department (LHD):

- Immediately upon learning of a positive case
- 48 hours after symptom onset in a staff member or student if no HCP evaluation or test result has been received. The LHD will collaborate with the school for contact tracing and to identify contacts.

Provide the LHD with contact information of school personnel who will assist in the LHD's contact investigation. Include the names and phone numbers of at least two points of contact, as appropriate, such as:

- School Principal
- Administrative Support Person
- Principal Designee

THEN

Move forward with preestablished communication plan in consultation with LHD (e.g., notifying the school community of confirmed case(s), as appropriate).

Begin to identify contacts of the case to provide to the LHD.

Provide the LHD with a list of people who are possible contacts of the case including:

- Contact's full name
- Parent(s)/Guardian(s) full name(s)
- Phone number(s)
- Home address
- Nature of contact (e.g., persons in same classroom, bus, etc.)
- Student, teacher, or type of staff member

Contacts will include students/staff who had exposure to the individual suspected or confirmed to have COVID-19 beginning two days before their symptom onset (or if the case was asymptomatic, two days before the date they were tested) until the case is excluded from the school and in isolation. Schools and LHDs should work together to ensure any before, after, or other daycare; transportation; extracurricular; and other non-school setting contacts are identified and notified of their exposure risk.

THEN

The LHD will determine which students/staff should be quarantined and excluded from school in addition to any other close contacts, such as social or household contacts. Contacts will be quarantined and excluded from school for 10 days from the date of last exposure to the case and advised to monitor for symptoms. The local health department will initiate isolation and quarantine orders.

When to welcome back affected students/staff:

The LHD will determine when students and staff are released from isolation or quarantine and can return to school.

The LHD should communicate to the school a release from isolation or quarantine in order for the student/staff to be welcomed back to the school.
